

eLOGMAR-M

Workshop

INVITATION

eLOGMAR-M workshop  
“IT Solutions in Transport and Logistics: China – Europe Cooperation”

September 22, 2006, Riga, Latvia  
Riga Technical University  
Kalku str. 1, Conference Hall (Aula), 2<sup>nd</sup> floor

Organised by eLOGMAR-M Project of the European Commission  
and Riga Technical University

The workshop aims at strengthening the scientific and technological cooperation and collaboration among the European Union countries and China in the field of IT applications and services for e-logistics. Open Web-portal for supporting business activities of cargo owners and transportation companies (especially, operating along China – Europe freight route) will be presented.

**Workshop target audience:**

IT specialists, cargo owners, forwarding companies, logistics companies, shipping lines, container terminals, rail and road carriers, transport agencies, education specialists.

**Workshop major topics:**

- Latvia in the 6<sup>th</sup> Information Society Technology Framework Programme of the European Commission (Latvian National Contact Point).
- IST Priority in the 7<sup>th</sup> Framework Programme (European Commission).
- Web-based and Mobile Solutions with Logistics and Maritime Applications (Fraunhofer Institute IFF, Germany).
- Possible ways of cooperation between China and Europe in e-logistics (Beijing HOPE software company and China Harvest Development company, China).
- EU Regulations, International Standards and National Laws related to Ports and Transport Logistics (Maritime & Supply Chain Management Solutions (Europe) Ltd., U.K.).
- Education & Training in Transport and Logistics (Warsaw University of Technology, Poland).
- Presentation of a Web-portal for Transport Services Consumers: Cargo Owners and Transportation Companies.
- Presentation of project's proceedings and multi-media CD.
